INDEX TO VOLUME 14

A

Abnormality, congenital (*see* under organs affected)
Acetyl-β-methyl choline chloride, iontophoresis by, treatment of scleroderma by means of, 474, 603
  use of, by iontophoresis in peripheral vascular diseases, 251*
Acetylcholine, liberation of, is action of vasomotor nerve only a matter of, 764*
Acidity, action of, on, heart muscle, 244*
Actinocardiogram, graphic recording of variations in intensity of heart shadow in mitral insufficiency recorded with, 370*
Actuary, viewpoint of, heart murmurs from, 10
Adams-Stokes syndrome, 373*
Adenis vernalis, clinical use of, 514*
Adonigen (*see* Adenis vernalis)
Adrenal, adenoma of, relation to hypertension, 512*
  gland and angina pectoris, 633*
    cortex of, function of, circulatory disturbances and, 633*
  in chronic heart involvement, 625*
Adrenalin (*see* Suprarenal substance)
Adson, A. W., and Allen, E. V. 250,* 415, 475
Age changes in, small cerebral arteries, and structure of, 378*
  curve, normal, of pulse wave velocity in elastic and muscular arteries of man, 380*
  study of renal arteries in relation to hypertension and, 490, 645
Alam, M., and Smirk, F. H., 372*
Allen, E. V., 252*
—, and Adson, A. W., 250,* 415, 475
—, and Crisler, G. R., 771*
—, and McKechnie, R. E., 127
Allergy, rôle of, in pathogenesis of progressive thrombosis, especially in regard to changes in endothelial lining of large peripheral veins, 245*
Althausen, T. L., Kerr, W. J., Bassett, A. M., and Goldman, M. J., 489, 594
Altschule, Mark D., 113
American Heart Association, thirteenth annual scientific session, 474
Aminophylline (*see* Ethylenediamine)
Anastomosis, arteriovenous, 125*
Aneurysm of aortic arch, due to persistence of portion of ductus arteriosus in adult, 113
  cardiac, unusual location of, and x-ray diagnosis, 631*
  of sinus of Valsalva, 124*
Angina pectoris, adrenals and, 633*
  associated with congenital rudimentary right coronary artery and rudimentray posterior cusp of mitral valve, at age of fourteen, 104
  diagnostic criteria of, analysis of, 331
  "exercise test" in electrocardiographic diagnosis of, 508*
  pain, site and radiation of, in, extracardiac determinants of, with special reference to shoulder pain, 488, 540
  sedimentation rate in coronary thrombosis and, 768*
  treatment, medicinal, of, 627*
    surgical methods of, 638 (book review)
Anginal syndrome, trichlorethylene inhalation in, results from, 659
Announcement, 643
Anomaly (*see* under organs affected)
Anoxemia, circulation and respiration in, reaction of, 117*
  effect of, on venous pressure of healthy individuals, 634*
Anthony, A. J., 634*
—, Budelmann, G., and Schwarz, W., 634*
Aorta, abnormality, congenital, of, 510*
  arch of, aneurysm of, due to persistence of portion of ductus arteriosus in adult, 113
    flow of blood in, 118*
  coarctation of, adult type, congenital bicuspid aortic valve, subacute bacterial endocarditis, 107
  commissural lesion of, in rheumatic fever, 377*
  pain of, and x-ray irradiation, 381*
Aortitis, syphilitic closure of mouths of coronary arteries, collateral circulation of heart in, and adhesive mediastinopericarditis, 375*
  pathology of, 377*

An asterisk (*) after a page number indicates that the reference is an abstract and not an original article.

Apperly, Frank L., and Cary, M. K., 512*
Arieff, M. J., Wituschinsky, W. J., and Rabinerson, A. B., 375*
Arteriogram, study of peripheral arteries in Raynaud's disease (living subjects), 252*
Arteriosclerosis, early diagnosis of, 511*
experimental, relation of, to diets rich in vegetable protein, 246*
pathological basis for intermittent claudication in, 442, 474
thromboangiitis obliterans and, 771*
Artery, cerebral, small, structure of, and changes with age, 378*
coronary, circulation in, 247*
dilator substances, experimental studies of, 637*
emboli, air, in, following artificial pneumothorax, 380*
injection study of, especially in coronary occlusion, 487
left, anomalous origin and course in child, 219
minute volume flow in, 247*
movement of blood in, 247*
occlusion, acute, of, 632*
experimental, course of cardiac infarction following, effect of theophylline with ethylenediamine (aminophylline) on, 284
hemodynamic studies in, 21, 669
hemodynamics following, 117*
left anterior descending branch, electrocardiographic changes in dog following, 677
injection study of coronary arteries, especially in, 487
production by epinephrine of S-T changes in electrocardiogram of cat, similar to those of, 211
sclerosis of, anginal syndrome of, results from trichlorethylene inhalations in, 659
syphilitic meso-aortitic closure of mouths of, collateral circulation of heart in, and adhesive mediastinopericarditis, 375*
thrombosis of, blood pressure in years following recovery from, 629*
acute, of, characteristic serial changes in fourth lead after, 69
life expectancy in, 121*
pain, preliminary, in, 120*
prognosis following recovery from, with special reference to influence of hypertension and cardiac enlargement, 769*
sedimentation rate in angina pectoris and, 768*
size of heart after, 769*
Artery—Cont'd
elastic and muscular, of man, normal age curve of pulse wave velocity in, 380*
elasticity of, interpretation of, from measurement of pulse wave velocities, 452, 475
medium and large, rôle of, in regulating circulation, 379*
occlusion, acute, of, problems in diagnosis, prognosis and treatment of, 487
mechanical, of extremities, effect on circulation, relation to arterial embolism, 127
sudden, of extremities, experience with conservative management of, 474
peripheral, arteriograph of, in Raynaud's disease (living subjects), 252*
diseases of, differentiation between functional and organic, by roentgen ray studies, 252*
occlusion, acute, and its treatment, 630*
permeability of, action of drugs upon, 512*
pulmonary, primary sarcoma of, 513*
renal, constriction of, hypertension produced by, in sympathectomized dogs, 405, 475
study of, in relation to age and to hypertension, 490, 645
Arthritis, gonococcal, pathogenesis of endocarditis and sepsis, 766*
Aschenbrenner, R., 626*
Ascroft, P. B., 245*
Ashman, Richard, Hafkesbring, E. M., Drawe, C. E., 375,* 376*
Aspirin-calcium therapy in chorea, 253*
Atherosclerosis (*see* Arteriosclerosis)
Asthma, bronchial, heart and circulation in emphysema and, 634*
cardiac, management of congestive catarrh and, in a spa, 514*
Athletes, electrocardiographic and kymographic studies in, after exertion, 636*
heart in, roentgenological studies of, 514*
size in, roentgenological study of, 252*
Athletics, heart disease and, 514*
Auricles, electrocardiographic studies of, 374*
fibrillation of, auricular derivation S5 and, 639 (book review)
probability theory of parasystole in, calculations on basis of, 636*
flutter of, complete auriculoventricular block and, with observations of effect of quinidine sulfate, 735
continuing for twenty-four years, 374*

Auricles—Cont'd
right, enormous dilatation of, tricuspid stenosis with, 744
systole of, effect of choline bodies in, 765*
Axis, electrical, in simultaneous leads, 588

B

Baker, A. B., 378*
Barbiturate, narcosis from, action of cardiozol and respiration and metabolism in, 253*
Bardin, Pierre, 639
Barker, Paul S., Johnston, F. D., and Wilson, F. N., 82
Basedow's disease (*see* Hyperthyroidism)
Bassett, A. M., Kerr, W. J., Goldman, M. J., and Althausen, T. L., 489, 594
Bath, cold, heart disturbances following, 514*
Baths, action of, on circulation time in man, 767*
Battro, A., and Braun Menendez, E., 628*
Bean, William Bennett, 684
Beck, Claude S., 490, 515
Beer, A. G., 631*
Beiglböck, W., and Junk, H., 125*
Bellet, Samuel, Gouley, B. A., and McMillan, T. M., 509*
Beneke, R., 378*
Bener, A., and Ludwig, H., 120*
Benjamin, Julien E., and Landt, H., 489
Bérard, Marcel, 638 (book review)
Berconsky, I., Cossio, P., and del Castillo, E. B., 372*
Bernhardt, H., 381*
Bernheim, Alice R., and London, I. M., 771*
Binswanger, H., Katz, L. N., Eschelbacher, J. L., Strauss, S., and Robertson, S. H., 571
Blackford, L. Minor, and Smith, C., 488
Blalock, Alfred, Robinson, C. S., Cunningham, R. S., and Gray, M. E., 380*
Bloch, Leon, and Perlow, S., 513*
Blood, circulation time of, of dogs, determined by ionization (Geiger counter) methods: effects of physicophysiological agents and drugs, 51
effects of digestion, 60
culture, bacterial, in endocarditis lenta, 121*
flow of, local anomalies of, endarteritis obliterans as sequel of, 378*
coronary, action of vagi, pilocarpine and carotid sinus reflex, 248*
in aortic arch, 118*
minute volume, in coronary artery, 247*
Blood, flow of—Cont'd
pulmonary, measurement of, 625*
return to heart, repiratory pulse (cardiopneumogram) and, relation to posture in man, 766*
stimulation, local thermal, influence of, upon, through skin, 771*
velocity of, after exercise, 372*
apparent increased, in cases of congenital heart disease with septal defects having right-to-left shunt, 230
venous, near heart, 634*
metabolism of, and urobilinuria in insufficiency of heart, 508*
movement of, in coronary arteries, 247*
sinus, 247*
pressure, arterial, effect of alteration of posture on, 319
in limb vessels, 512*
effect of denervation of kidney on, 124*
posture on, clinical significance of, 124*
following interruption of vasomotor nerves of man, 87
electrical currents, action of, upon, 511*
high, rôle of hypophysis in, especially in essential hypertension, 246*
in rabbits, experimental renal lesions and, 244*
in years following recovery from coronary thrombosis, 629*
puberty, effect of, on, 635*
reflex arising from voluntary muscles, observations in man, 372*
venous, effect of anoxemia on, in healthy individuals, 634*
sugar, regulation of disturbances of circulation in, 635*
supply, experimental attempt to increase, to dog's heart by means of coronary sinus occlusion, 116*
vessel, endothelium of, rare cancer of, 378*
vessels, peripheral, pathology, 252*
tone of, factors affecting, 383, 475
Blum, Lester, Schauer, G., and Gross, L., 669
—, Gross, L., and Silverman, G., 116*
Boas, Ernst P., and Levy, H., 488, 540
de Boer, S., 763*
—, and Brouwer, A., 244*
Bohmig, R., 635*
Bohning, Anne, and Katz, L. N., 487
Borgard, W., 510*
Bourne, Geoffrey, 123*
Brandt, W., and Reindell, H., 508*
Braun Menendez, E., and Battro, A., 628*

Breathing, artificial, action of, 765*
state of circulation and, of man at low pressures, 634*
Brenner, F., and Wachner, G., 631*
Brink, J. Russell, and Smith, H. L., 362
Brouwer, A., and de Boer, S., 244*
Brown, J. J. Mason, 124*
Brown, Morton G., and Riseman, J. E. F., 331, 627,* 768
Brüner, H., and Koch, E., 634*
Budelmann, G., Anthony, A. J., and Schwarz, W., 634*
Bürger, M., 635*
Burch, George E., Jr., and Sodeman, W. A., 490

C

Calef, Bension, and Gross, L., 677
Campbell, R., Griffith, J. Q., Jr., and Lindauer, M. A., 710
Cancer, rare, of blood vessel endothelium, 378*
Cannon, Walter B., 383, 475
Capillary, cutaneous, quantitative study of, in hyperthyroidism, 598
function of, and menstruation, 379*
tests, 379*
Carbaminoylcholine, action of, in normal persons, on peripheral vascular disease, 126*
Carbon-monoxide poisoning, electrocardiogram in, 768*
Cardiopneumogram (*see* Respiration pulse)
Cardiovascular system, diseases of, emergencies in, treatment of, 126*
familial, of, 489
syphilitic, of, studies in, 511*
disturbances of, nature of, vitamin deficiency states, 118*
Cardiozol, action of, and respiration and metabolism in pernoctonnarcosis, 253*
de Carrasco, O., and Zaeper, G., 507*
Cary, M. Katharine, and Apperly, F. L., 512*
del Castillo, E. B., Cossio, P., and Berconsky, I., 372*
Caul, H., Cossio, P., and Vivoli, D., 511*
Cell, photoelectric (*see* Actinocardiogram)
Chamberlain, Francis L., and Levy, R. L., 268, 490
de Châtel, A., 626*
Chevillot, M., and Tournade, A., 764*
Chiari, H., 252*
Chicago, heart disease in, multiple etiological factors in 5000 cases of, 486
Child, anomalous origin and course of left coronary artery in, 219
Children, ambulatory, with heart disease, study of Lead IV in, and in normal children, 510*
Children—Cont'd
small, electrocardiography in infants and, 66
Chloride, high content of blood, site and significance of, in arterial hypertension, 512*
Choline bodies, effect of, on auricular systole, 765*
rôle of, in production of shock in guinea pig heart, 763*
Chorea, calcium-aspirin therapy in, 253*
independence of, and rheumatic activity, 248*
Circulation, automatic adjustment and regulation of, 631*
capillary, studies of, 507*
action of certain drugs on circulation, 763*
carotid sinus reflex, effect of, on, 634*
changes, normal and pathological, in limb veins, 513*
collapse of, of diphtheritic origin, effect of cortical hormone and vitamin C on, 381*
collateral, phrenico-pleural, 630*
studies of, following experimental vascular occlusion, 726
coronary, factors of, in hypertensive heart failure, 160
insufficiency of, electrocardiogram, four-lead, in, and myocardial infarction, 487
following histamine collapse and orthostatic collapse, 633*
pharmacology of, 633*
disturbances of, and function of adrenal cortex, 633*
effect on, of mechanical occlusion of individual arteries of extremities, relation to arterial embolism, 127
heart and, in emphysema and bronchial asthma, 634*
hormones and, in gynecology, 635*
hypophysis and, 634*
in coronary arteries of heart, 247*
in disturbances of blood sugar regulation, 635*
in pneumothorax, 246*
in thyroid disturbances, 635*
injection, intra-arterial, of vasodilating drugs, result of, on, 771*
peripheral, muscle tone and its relation to, 125*
observations on, by experimental aortic insufficiency, 379*
state of, in health and disease, 246*
pressure, arterial, in limb vessels, 512*
reaction of, in anoxemia and respiration, 117*
rôle of medium and large arteries in regulating, 379*
state of, of man at low pressures, 634*
strophanthin, action of, on, of normal persons, 633*

Circulation—Cont'd
time, action of baths on, in man, 767*
of blood of dogs determined by ionization (Geiger counter) methods: effects of physico-physiological agents and drugs, 51
effects of digestion, 60
Circulatory system, state of, in vegetarians and alcoholics, 766*
Clamann, H. G., and Wöhlisch, E., 370*
Clara, M., 125*
Claudication, intermittent, pathological basis for, in arteriosclerosis, 442, 474
therapy in and criteria for judging effect in, 382*
Coburn, Alvin F., and Moore, L. V., 248*
Comeau, Wilfrid J., 373*
Conduction, auriculoventricular, unusual disturbances of, 768*
time, auriculoventricular, variable: auricular paroxysmal tachycardia with, 183
Cossio, P., del Castillo, E. B., and Berconsky, I., 372*
—, Vivoli, D., and Caul, H., 511*
Coulter, John J., de Takáts, G., and Hick, F. K., 379*
Craig, Winchell McK., and Knepper, P. A., 125*
Crassusi, 514*
Crisler, George R., and Allen, E. V., 771*
Criteria, diagnostic, analysis of, of angina pectoris, 331
Cunningham, R. S., Blalock, A., Robinson, C. S., and Gray, M. E., 380
Cushing, E. H., 121*
Cutts, Frank B., 717
Cystamin, new histamine-like blood pressure depressor substance, 633*

D

Dack, S., Master, A. M., Kalter, H. H., and Jaffe, H. L., 297
Dale, H., 632*
Death, age at, in chronic rheumatic valvular disease, duration of symptoms and, especially in tricuspid stenosis, 121*
Demel, R., and Sgalitzer, M., 252*
Diebold, O., and Mertens, O., 370*
Dieckhoff, J., 624*
Digitalis, action of, on central nervous system, 636*
power of heart with and without hypertrophy with aortic insufficiency as determined in heart-lung preparation, 624*
electrocardiogram from, 626*
therapy, from empirical to experimental, 126*
Diphtheritic circulatory collapse, effect of cortical hormone and vitamin C on, 381*
Diverticulum of pericardium, 121*
Döring, G., 371*
Donath, F., 632*
Doryl (*see* Carbaminoylcholine)
Douglas, Albert H., Gelfand, B., and Shookhoff, C., 211
Drawe, Catherine E., Hafkesbring, E. M., and Ashman, R., 375,* 376*
Dry, Thomas J., 135
—, and Willius, F. A., 659
Duryee, A. Wilbur, and Wright, I. S., 474, 603
Dyspnea, nocturnal, paroxysmal, trepopnea as etiological factor in, 255
test, determination of Basedow heart by, 766*

E

Eckey, P., 508*
Edema, mobilization of: use of mercupurin in treatment of congestive heart failure and, 526
Edwards, Edward Allen, 428, 474
Ehrström, M. C., 508*
Electric current, action of, upon blood pressure, 511*
Electrocardiogram, alterations, respiratory, relation between respiratory arrhythmia and, 767*
changes in, in acute pericarditis, 31, 489
in cor nervosum, 508*
in dog following sudden occlusion of left anterior descending coronary branch under various experimental conditions, 677
S-T, produced by epinephrine, similar to those of coronary occlusion, 211
with shift from reclining to standing position, 626*
children's, changes in, produced by rheumatic and congenital heart disease, 376*
clinical, precordial leads in, 373*
complex, final, abnormal deviations of, in local Lead III, 626*
initial, value of, in test of heart function, 626*
conduction disturbances in human heart, 374*
diagnosis of angina pectoris by, "exercise test" in, 508*
of ventricular hypertrophy, 626*
digitalis, 626*
during work, 373*
electrical axis in simultaneous leads, 588
four-lead, in myocardial infarction and coronary insufficiency, 487
in carbon-monoxide poisoning, 768*

Electrocardiogram—Cont'd
Lead IV, characteristic serial changes in, after acute coronary thrombosis, 69
study of, in normal children and in ambulatory children with cardiac disease, 510*
leads, connection of, rational principle for, 7
unipolar, of, 676*
localization and prognosis of anterior wall infarction with, 627*
of isolated frog heart under influence of light and heavy water, 508*
partial, clinical studies of, in man, 637*
significance of absent or small initial positive deflection in precordial lead, 297
studies of athletes after exertion, 636*
of auricles, 374*
of mitral stenosis, 628*
time relation between mechanical systole and, 374*
Electrocardiograph, tension, for quantitative work for practitioner, 636*
Electrocardiography, clinical, technique in, with precordial derivation, 1, 7
in infants and small children, 66
leads, chest, in, 120*
occurrence of upright T-wave in Lead IV in patient without other evidence of heart disease, 367
Embolism, arterial: effect on circulation of mechanical occlusion of individual arteries of extremities, 127
pulmonary, 639 (book review)
Embolus, air, in coronary arteries following artificial pneumothorax in thirty-year-old patient, 380*
venous, 380*
Emphysema, heart in, 118*
and circulation in bronchial asthma and, 634*
Endarteritis obliterans, as sequel of local flow anomalies, 378*
Endocarditis, bacterial, subacute, bacterial cultures from blood in, 121*
clinicopathological study of, 362
coarctation of aorta (adult type), congenital bicuspid aortic valve and, 107
manifestations, unusual clinical, of, 352
lenta (*see* Endocarditis, bacterial, subacute)
malignant chronic, 639 (book review)
pathogenesis of, and gonococcal arthritis and sepsis, 766*
Epinephrine (*see* Suprarenal substances)
Ephedrine-ephetonin, injection of, experimental production of left ventricular hypertrophy by, 371*
Ergotamine tartrate, impending gangrene of feet due to, 513*
Ernst, 637*
Eschelbacher, J. L., Katz, L. N., Strauss, S., Robertson, S. H., and Binswanger, H., 571
Essex, Hiram E., McCracken, E. C., and Sheard, C., 51, 60
Ethylenediamine (aminophylline) in treatment of cardiac pain, 381*
effect of theophylline with, on course of cardiac infarction following experimental coronary occlusion, 284
v. Euler, U. S., 117*
Evans, Courtenay, 753
Exanthemata, involvement of myocardium in, 509*
Excitation waves, concerning interference of two, in ventricle, 508*
Exercise, investigation of blood velocity after, 372*
test in electrocardiographic diagnosis of angina pectoris, 508*
Extrasystole (*see* Heart contraction, ectopic, of)
Extremities, vasospastic states of, basis of treatment of, experimental analysis in monkeys, 245*

F

Fabian, G., and Scriba, J., 766*
Fainting attacks from hypersensitive carotid sinus reflexes, 490, 614
Faleiro, A., 508,* 626,* 627*
Faulkner, James M., 126*
Feil, Harold, 120*
Feinstein, Marcus A., and Lieberson, A., 69
Ferrannini, A., 764*
Fever, strophanthin, action of, in, 763*
Fibrillation, auricular, 247*
Flaxman, Nathan, 247*
Fleck, S., and Klisiecki, A., 247*
Flutter, auricular, audible auricular sounds in, 120*
continuing for twenty-four years, 374*
Fraenkel, A., 126*
Freeman, Norman E., Page, I. H., 405, 475
Frey and Hess, 637*

Heart, abnormality of, septal defects having right-left shunt, apparent increased velocity of blood flow in cases of congenital heart disease with, 230
congenital of, aneurysm of arch of aorta due to, 113
angina pectoris associated with, at age of fourteen, 104
biscuspid aortic valve, coarctation of aorta (adult type), and subacute bacterial endocarditis, 107
situs inversus of abdominal organs with, and right-sided aortic arch, 510*
action of, is it influenced by gastrointestinal tract, 625*
magnesium on, 625*
manner assisted by intrathoracic suction, 625*
beat of, studies on physiological irregularities of: II. Relation between respiratory arrhythmias and respiratory alterations in electrocardiographic configuration, 767*
circulation, collateral of, in syphilitic meso-aortitic closure of mouths of coronary arteries and in adhesive mediastinopericarditis, 375*
compression of, acute and chronic, 490, 515
contraction, ectopic ventricular, interpolation of, 770*
denervated, hemodynamic studies in experimental coronary occlusion, 21
disease of, 638 (book review)
and athletics, 514*
children, ambulatory, with study of Lead IV in normal children and in, 510*

Heart, disease of—Cont'd
congenital, blood flow, apparent increased velocity of, in cases of, with septal defects having right-left shunt, 230
changes in children's electrocardiograms produced by rheumatic heart disease and, 376*
diagnosis of, approach to, 135
reciprocal rhythm, in patient with, 717
degenerative dystrophic, glycocoll metabolism in, 631*
development of cardiac enlargement in, 637 (book review)
etiology, multiple factors in 5,000 cases in Chicago, 486
in pregnant women, 487, 555
review of literature of 1936, 116*
rheumatic, changes in children's electrocardiograms produced by congenital heart disease and, 376*
chronic valvular, duration of symptoms and age at death, especially in tricuspid stenosis, 121*
treatment of, with gratusbaina and with gratusbainose, 631*
disturbances of, following cold bath, 514*
effect of epinephrine on, 198
energy of, action of adrenalin on, 765*
enlargement of, chest lead tracings in arterial hypertension with, 155
clinical significance of, 382
development of disease of heart, 637 (book review)
failure, congestive, precipitating causes of, 490
secondary to chronic pulmonary tuberculosis, 123*
treatment of, use of mercupurin in, and in mobilization of excess body fluid, 526
hypertensive, of, coronary and extra coronary factors in, 160
function, test of, value of initial complex of electrocardiogram as, 626*
guinea pig, effect of acute scurvy on, 122*
human, conduction disturbances in, 374*
in emphysema, 118*
and bronchial asthma, circulation and, 634*
infarction of: I. Predisposing and precipitating conditions, 684
anterior wall of, localization and prognosis of, with electrocardiogram, 627*
insufficiency of, metabolism of blood and urobilinuria in, 508*
Heart—Cont'd
interventricular septum, acquired defect of, 240
syphilis of, and ventricular tachycardia, 511*
involvement, chronic, of, adrenals in, 625*
murmurs of, from viewpoint of actuary, 10
muscle, acidity, action of, on, 244*
pigment of, and skeletal muscles and its relation to muscle function, 635*
working, loss of albumin of, 371*
nervous, electrocardiogram in, 508*
output, minute, of, central nervous regulation of, during inhalation of CO_2 rich air, 370*
physiology and pathology of, 641 (book review)
power of, with and without hypertrophy with aortic insufficiency, as determined in heart-lung preparation, 624*
rate, action of hydroquinine, hydroquinidine, quinine P, and quinidine P on, and refractory phase, 244*
rauwolfine, effect of, on fibrillation of heart chambers and, 763*
refractory phase of, action of hydroquinine, hydroquinidine, quinine P and quinidine P on, and rate of, 244*
resting, elastic properties of, 370*
rhythm, reciprocal of, 372*
roentgenological studies of, in athletes, 514*
shadow of, variation in intensity of, in mitral insufficiency, graphic recording of, with actinocardiogram, 370*
size of, after coronary thrombosis, 769*
in paroxysmal tachycardia, 508*
in pulmonary tuberculosis, 377*
roentgenological study of, in athletes, 252*
tuberculosis and study of 600 x-rays of men with tuberculosis, 511*
variability of, investigation of twins, 625*
slowing of, with deep inspiration, 371*
sounds of, apparatus, new, for recording, 236
auricular, audible, in auricular flutter, 120*
symballophone for lateralization and comparison of, 489, 594
valves of, lesions of, in rheumatic fever, 248*
wall of, changes in, in the roentgenkymogram, 631*
warm-blooded, metabolism of, adrenalin and, 371*

Heart-block, auriculoventricular, complete, and auricular flutter with observations of effect of quinidine sulfate, 735
bundle branch, histopathological basis of, 488
in a normal young man, 753
complete, in rheumatic fever, acute, 759
paroxysmal, alternating with normal rhythm and conduction, 373*
"exit," auricular parasystole showing, 571

hypersensitive, fainting attacks from, 490, 614
coronary, movement of blood in, 247*
occlusion of, experimental attempts to increase blood supply to dog's heart by means of, 116*
Sinuses of Valsalva, three, aneurysm of, 124*
Situs inversus of abdominal organs with congenital heart and right-sided aortic arch, 510*
Smirk, F. H., and Alam, M., 372*
Smith, Carter, and Blackford, L. M., 488
Smith, Harry L., 490, 614
—, and Brink, J. R., 362
Smith, Paul W., and Milles, G., 198
Sodeman, William A., 367
Sorensen, Lawrence M., Hollingsworth, E. W., and Van den Driessche, A., 236
Spark, Charles, and Gross, H., 160
Spiegl, E., and Rihl, J., 508*
Springorum, W., 771*
Spühler, O., 373*
Standl, R., and Wezler, K., 380*
Stanley, Dean F., 240
Starr, Isaac, 126*
Steele, J. Murray, 452, 475
Stein, Irwin D., 726
Steinmann, B., 768*
Stewart, Harold J., and Wheeler, C. H., 526
Straub, W., and Scholz, J., 624*
Strauss, S., Katz, L. N., Eschelbacher, J. L., Robertson, S. H., and Binswanger, H., 571
Strophanthin, action of, factors involved in (distribution, elimination, cumulation), and effectiveness of several ester combinations of, 624*
in fever, 763*
on circulation of normal persons, 633*
on Purkinje fibers of dog heart, 764*
Strotmann, A., and Grosse-Brockhoff, F., 374*
Sodeman, William A., and Burch, G. E., Jr., 490
Substance P, observations on, 117*
Sunderland, Douglas A., McBroom, J., Mote, J. R., and Jones, T. D., 122*
Suprarenal gland, partial resection, general considerations and report of results of treatment of essential hypertension by extensive resection of sympathetic nerves and, 250*
substance, 632*
action of, on energy of heart, 765*
vasomotor nerves, 248*
(adrenalin) and metabolism of warm-blooded heart, 371*
(epinephrine) effect of, on heart, 198
production by, of S-T changes in electrocardiograms of cat, similar to those of coronary occlusion, 211
Sylla, A., 371*
Symballophone, 489, 594
Sympathectomy, extensive, physiological effects of, for essential hypertension, 415, 475
hypertension produced in dogs by constriction of renal artery in, 405, 475
Sympathetic nervous system, paraganglia in, and in cranial nerves, 633*
Syphilis, cardiovascular, studies in, 511*
of interventricular septum and ventricular tachycardia, 511*
Systole, duration of, in hypocalcemia, 82
relative, determination of, 768*
mechanical, time relation between and electrocardiogram, 374*

T

Tachycardia, auricular, paroxysmal, treatment of, vagal reflex irritability and, with ipecac, 382*
with variable auriculoventricular conduction time, 183
paroxysmal, heart size in, 508*
ventricular, syphilis of interventricular septum and, 511*
use of quinidine sulfate intravenously in, 490, 620
de Takáts, Geza, Hick, F. K., and Coulter, J. S., 379*
Tannenberg, Joseph, 245*
Taussig, Barrett L., 744
Terrell, Alexander W., Wood, F. C., and Wolferth, C. C., 255
Test, postural, as means of classifying hypotension, 124*
Thaddea, S., 633*
Theiss, O., and Schlomka, G., 768*
Theobromin in treatment of cardiac pain, 381*
Theophylline, effect of, with ethylenediamine (aminophylline) on course of cardiac infarction following experimental coronary occlusion, 284

Thiel, K., 765*
Thiocyanate therapy, in hypertension, including new micromethod for determining blood thiocyanates, 710
Thomas, R. M., Winternitz, M. C., LeCompte, P. M., 399, 474
Thompson, William Paul, and Levine, S. A., 121*
Thromboangiitis, obliterans, arteriosclerosis and, 771*
ulcerations, simultaneous quadrilateral acute, in, 466
Thrombophlebitis, treatment with ambulant compression bandages, 772*
Thrombosis, coronary (*see* Artery, coronary thrombosis of)
progressive, pathogenesis of, rôle of allergy in, especially in regard to changes in endothelial lining of large peripheral veins, 245*
Thyroid gland, disturbances of, circulation in, 635*
Tietze, K., 767*
Tournade, A., and Chevillot, M., 764*
Travell, Janet, Gold, H., and Modell, W., 284
Trepopnea as etiological factor in paroxysmal nocturnal dyspnea, 255
Trichlorethylene, inhalations of, results from, in anginal syndrome of coronary sclerosis, 659
Tuberculosis and heart size: study of 600 x-rays of men with tuberculosis, 511*
pulmonary, size of heart in, 377*
chronic, cardiac failure secondary to, 123*

U

Urginin, clinical study of, in treatment of myocardial insufficiency, 268, 490
Urobilinuria, metabolism of, and blood in insufficiency of heart, 508*

V

Vagus, pressor receptor fibers of, 371*
substance, studies on, 624*
Valve, aortic, congenital bicuspid, 122*
insufficiency of, power of heart with and without hypertrophy with, as determined by heart-lung preparations, 624*
experimental observations in peripheral circulation by, 379*
syphilitic, of, 488
deformity of, effect of, on duration of life, 509*
mitral, insufficiency of, graphic recording of variation of intensity
Valve, mitral—Cont'd
of heart shadow in, with actinocardiogram, 370*
severe disease of, pulmonary infarction complicating, 510*
stenosis, electrocardiographic studies of, 628*
pulmonary, insufficiency, organic and relative of, 488, 562
tricuspid, stenosis of, duration of symptoms and age at death in chronic rheumatic valvular disease, 121*
with enormous dilatation of right auricle, 744
Van den Driessche, Albert, Hollingsworth, E. W., Sorensen, L. M., 236
Vander Veer, Joseph B., and Norris, R. F., 31, 489
Vascular system, disease of, pathology of studies in, 399, 474
obliterative, intermittent venous occlusion in treatment of, 124*
occlusion, experimental, of, studies of collateral circulation following, 726
peripheral, disease of, action of carbaminoylcholine on, 126*
determination of surgical approach, 636*
treatment of, intermittent venous hyperemia in, 379*
use of acetyl-β-methylcholine chloride by iontophoresis in, 251*
Vasodepressor substance, 632*
Vasomotor center, excitability of, in man, 247*
system, regulation, central, of: histamin, 764*
spastic states of, basis of treatment of, of extremities, experimental analysis in monkeys, 245*
Veal, J. Ross, 442, 474
Veins, intermittent occlusion of, in treatment of obliterative vascular disease, 124*
peripheral, large, endothelial lining of, changes in rôle of allergy in pathogenesis of progressive thrombosis, especially in regard to, 245*
Ventricle, hypertrophy of, electrocardiographic diagnosis of, 626*
left, hypertrophy of, experimental production of, by injection of epinephrine-ephetonin, 371*
Veratrin, action of, on Purkinje fibers, 370*
Vienken, W., and Schlomka, G., 767*
Vitamin C, effect of, on circulatory collapse of diphtheritic origin, 381*

Vitamins, deficiency of, nature of cardiovascular disturbances in, 118*
Vivoli, D., Cossio, P., and Caul, H., 511*

W

Wachner, G., and Brenner, F., 631*
Wahren, H., 507*
Wald, H., Guernsey, M., and Scott, F. H., 319
